

# PLASTIC HOSE AND PIPE CUTTER

23719

## 1. Scope

This product is designed for cutting thick- and thin-walled plastic tubes and moulding of up to 35mm (1<sup>3</sup>/<sub>8</sub>" in diameter.

Any other application beyond the conditions established for use will be considered misuse. Draper Tools accepts no responsibility for improper use of this product.

**Important:** **DO NOT** use this tool to cut reinforced materials. If the blade does not penetrate the workpiece, do not continue to use the tool.

Example cross-sections of compatible cutting profiles.

## 2. Health and Safety Instructions

**WARNING!** Keep your hands clear of the blade and cutting area while in use.

- **ALWAYS** retract the blade when not in use.
- **DO NOT** allow untrained users to operate this product.
- Keep this product out of reach of children.
- Store this product in a clean and dry environment, out of direct sunlight.

### 3. Operating Instructions

- 1. Place the material to be cut into the tool jaw, with the blade (1) directed at the vertical centre of the workpiece.
  - 2. Squeeze the trigger (2) slowly and repeatedly to extend the blade and cut the material.
- Important:** **DO NOT** turn the workpiece while performing the cut.

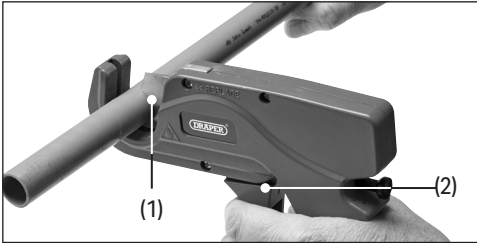

Fig. 1

- 3. Press the blade release button (3) to retract the blade.
- Important:** **DO NOT** squeeze the trigger while pushing the blade release button.

Fig. 2

### 4. Replacing the Blade

- 1. Fully extend the blade by squeezing the trigger at least eight times.

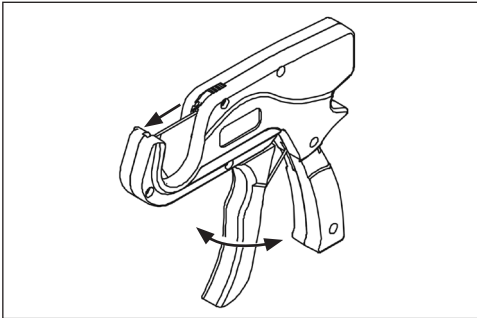

Fig. 3

- 2. Unscrew the retaining screw (4) and remove the blade guard (5).

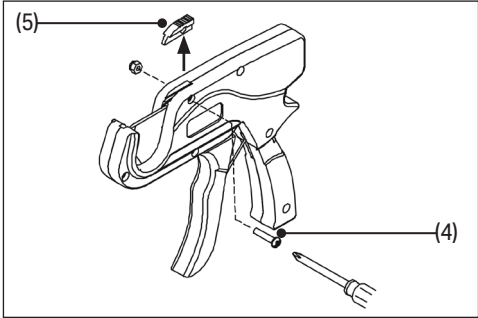

Fig. 4

- 3. Lift the blade (1) out the cutter body.
