

To make assembly easier we recommend having two persons aid one another.

FIXING THE TALL CABINET TO A WALL

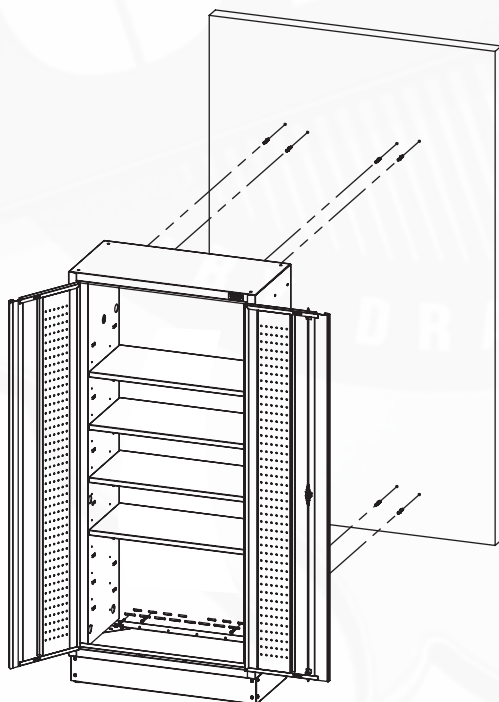

STEP 1:

Open the doors and remove the drawers from the cabinet.

STEP 2:

- Position the tall cabinet on the wall surface, use the holes on back panel to determine the spacing of the plastic plugs and mark the position.
- Using a drill bit, drill the holes and insert the 8pcs plastic plugs.
- Attach the tall cabinet to the wall with screw ST6.3 x 65mm, and tighten with cross slot screwdriver (not included).

STEP 3:

Reinstall the drawers to the cabinet.
