

To make assembly easier we recommend having two persons aid one another.

Stock No. **28103**

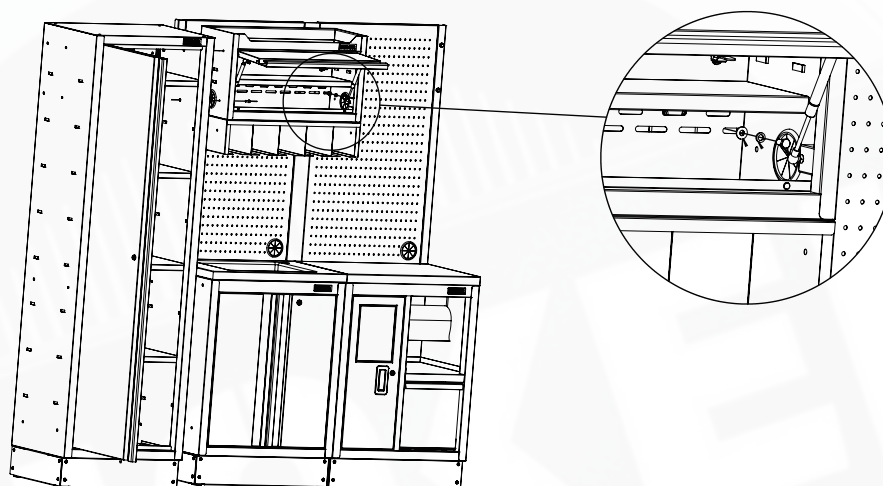

Part No. **MS400-PTSR**

FITTING THE POWER TOOL STORAGE AND RACK TO A PEGBOARD

STEP 1:

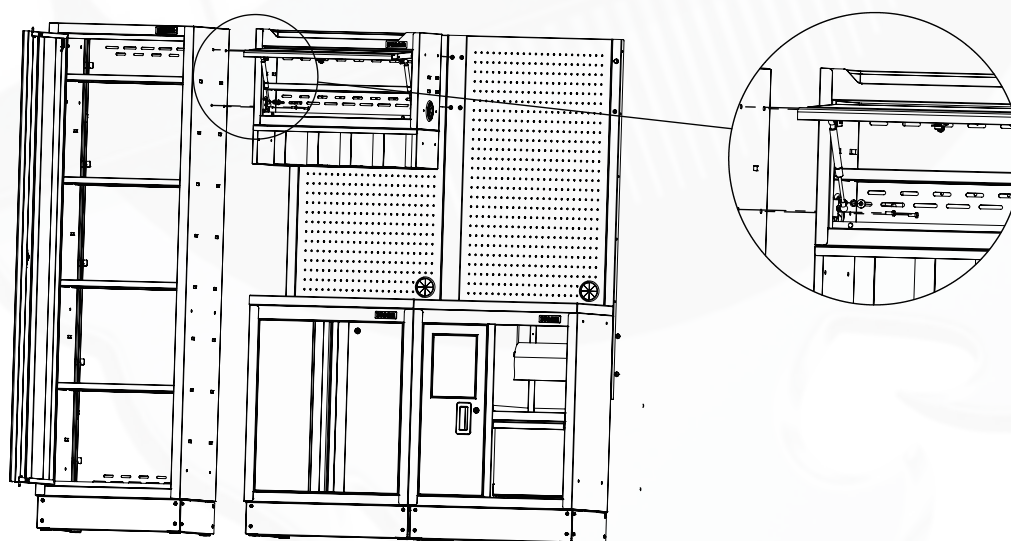

- Remove the rubber grommet before connecting the side panels.
- Attach the power tool storage and rack to wall brackets with bolt M8 x 16mm, flat washer and spring washer, and tighten with wrench (not included).

Note: Do not fully tighten.

STEP 2:

- Connect the side panels of two cabinets with bolt M6 x 16mm and nut M6 and tighten with wrench (not included).

FITTING THE POWER TOOL STORAGE AND RACK TO A WALL

- Determine the spacing of the plastic plugs at a desired height.
- Position the wall cabinet on the wall surface, use the holes on back panel to line up and mark the position as per the spacing marked in below figure.
- Using a drill bit, drill the holes and insert the four plastic plugs.
- Attach the power tool storage and rack to the wall with screw ST6.3 x 65mm and tighten with cross slot screwdriver (not included).
