Health and Safety Information

Important: Read all the Health and Safety instructions before attempting to operate, or maintain this product and retain for future use. Failure to follow these instructions may result in injury or damage to the user or the product.

- Check for damaged or loose parts before each use.
- **NEVER** touch the cutting blade.
- To avoid injury check that the telescopic handles are secured in place correctly before use.
- **ALWAYS** use appropriate personal protective equipment (PPE) when using this product: To protect from injury caused by falling branches **ALWAYS** wear protective glasses, gloves, head protection and appropriate footwear.

WARNING! Avoid danger to life from electric shock. Do not use near high voltage lines, electricity cables, electric fences, etc.

- **DO NOT** use the pruner on ladders or steps.

Fitting the Saw Blade

Note: DO NOT leave the bolt, nut and washer attached to the pruner pole when the saw blade is not fitted.

When the saw blade is fitted check that the wing nut is correctly tightened before each use.

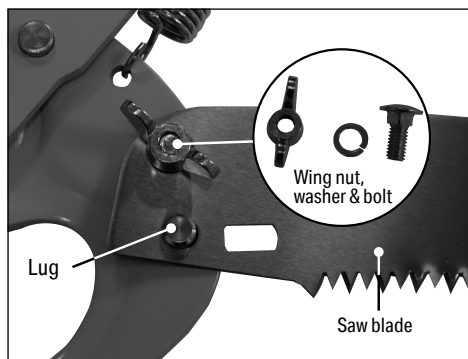

Fig. 1

Maintenance

- Check and clean the blades carefully after every use. Dirt and sap on the blades may lead to rust formation and affect the cutting action of the blade.
- Rub the metal parts with an oiled cloth to protect them from the build-up of rust.
- Regular care carried out properly will ensure that your pruners remain in good conditions.
