

DRAPER[®]

4 PIECE

**TRACK ROD
REMOVAL TOOL**

42397 – TRRT-4PC INSTRUCTIONS FOR USE

1. Specification

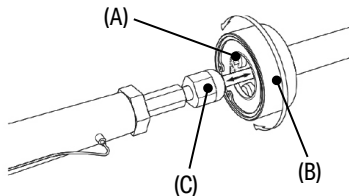

Stock No.	42397
Part No.	TRRT-4PC
Track Rod Arm Length :	350mm
Interchangeable Head Diameter:	30 – 35mm 35 – 40mm 40 – 45mm
Drive Ends	
Hex:	27mm (outer)
Square Drive:	½" (inner)

2. Health and Safety Instructions

- Always refer to the vehicle manufacturer's handbook or Haynes manual before dismantling, as some vehicles must be put into service mode. Failure to follow the vehicle manufacturer's service procedure can result in steering loss.
- Draper tools accepts no responsibility for incorrect installation of steering components.

3. Instruction for Use

1. Access the track rod and then allow the track rod to pass through the hollow body (A) until the head of the tool (B) meets the steering joint (C).
2. Use either a 27mm spanner or ½" square drive to turn the tool anti-clockwise to loosen the steering joint.
3. Reverse the process with the new joint.
